Développeur web et logiciel

PROFIL

Passionate web and software developer with 6 years of experience in creating web and desktop applications. Expertise in C++, Python, PHP, Symfony, HTML, CSS, and MySQL. I have completed several personal projects, including Linker (a blockchain payment platform), Linker Store (a software download platform), Artisan IND (an invoice numbering software), and WinPrinter (an automatic printing software). I am always looking for new opportunities to leverage my skills.
